Southeastern
Neuroradiological
Society

Welcome from the Program Chair

Sugoto Mukherjee, MD
President/Program Chair

Brad Mitchell, MD
Vice-President/Program Chair

Dear Colleagues:

I am delighted to present the 50th annual meeting of the Southeastern Neuroradiological Society, to be held October 15-18, 2026, in Nashville, Tennessee. This great milestone marks 50 years of collaboration, camaraderie, and top-tier educational content by and for neuroradiologists across the southeast and beyond. This year's program honors that great tradition and propels our Society into the next half century!

This meeting's location in vibrant downtown Nashville should make for a memorable experience. The stunning Sheraton Grand hotel sits among world-famous music venues (just steps from Broadway), museums, and riverfront parks. We will host our own social events on Thursday and Friday while leaving plenty of time to explore the town. Don't forget to pack those dancing boots! And of course we will reprise our acclaimed Stump the Stars contest, presented by reigning champion Dr. Dhairya Lakhani with perennial host Dr. Andrew Wagner.

The 2026 program includes more than 35 speakers – leading experts in diagnostic and interventional neuroradiology – with diverse topics in brain, spine, and head/neck imaging, pediatric neuroradiology, and vascular and spine intervention along with a few practice related topics, all relevant to both academic and private practice neuroradiologists. This year we are introducing moderators to facilitate interaction and discussion after each lecture. We will also hear from the best of submitted research abstracts and interesting case presentations; stay tuned for the call for abstracts. The Ullrich Memorial Lecture on Health Economics will be delivered by Dr. Colin Segovis, who will give an overview of the RUC/CPT process bolstered by his experience as ASNR CPT primary advisor. Our Keynote Address will be given by Dr. Robert Quencer, renowned neuroradiologist and fourth president of the SENRS (also past president of ASNR and former AJNR editor-in-chief); he will recount the history of the Society and the many changes he has witnessed in our field over the course of his storied career. A full list of speakers and lecture topics can be found below.

My excitement for this year's meeting cannot be overstated, and I look forward to seeing many familiar faces and meeting new friends. See you in Nashville!

Respectfully submitted,

Brad Mitchell, MD
SENRS Vice-President and Program Chair
